**Subject: First Arab Regional South-South Development Expo**

Dear Eng. Elias Abu Mohour,

Now that the hustle of the First Arab Regional South-South Development Expo has ceased, it is our great pleasure to thank you for sharing your project at the Expo which served as a platform for matching capacities of the solution providers with the needs of the solution seekers.

Your valuable participation has enriched UNEP's forum on Green Solutions for Sustainable Growth, with an innovative project aimed at implementing best solution for water management and food security in marginalized areas.

The enthusiasm and perseverance you have exhibited in presenting and explaining your project to the booth visitors goes to show your solid commitment towards Environmental Sustainability, a matter that represents the core of UNEP mandate.

We have noticed the great interest your project has generated among the booth visitors and forum attendees and hope that it will culminate with successful future partnerships.

Once again, please allow me to thank you for your contribution and express our delight at partnering with your good organisation at such an important Expo.

Best regards

**Iyad Abumoghli, Ph.D.**

Director & Regional Representative  
UNEP ROWA
